NS MULTI CAP ADVISORY PORTFOLIO

Stock Selection Procedure Involving 3 Broad Processes

- 1 MQC**
 M - Momentum In Return Ratios The RoE, RoCE or the Free Cash flows of company must be increasing
 Q - Quality Return ratios versus its peer as well as broader stock universe.
 C - Capital Allocation Management strategy on Allocation of funds
- 2 360 Degree Deductive Logic Framework**
 - Sustainable Valuation possible & factors impacting while identifying when market is under-pricing the company
 - Outlook on the company Financials-why a company is considered trading below its intrinsic value
 - Building a detailed business & financial model to realize the sources of earning & quality delta for the company.
 - Management strategy in terms of its finances particularly in terms of source & deployment of capital, marketing strategy in terms of its products, segments, pricing etc.
 - State of addressable market & identifying the changing dynamics of that addressable market.
- 3 Earnings & Quality: Both should be evolving in linear manner**
 There are three moving parts in terms of fundamental- stock price relation. These are changes in earnings, quality and valuation. Every company in its evolution passes through various stage of its progress. We prefer buying where linearity or a consistent positive delta is expected in earnings profile and the quality profile of the company. A stock before selection for portfolio should be first identified into what stage it is into.
